

## 2.1. Configuración inicial

### 1. Configurar el correo saliente

The screenshot shows a configuration window for outgoing email. It includes fields for Description, Priority, SMTP Server, SMTP Port, Debugging, Connection Security, Username, and Password. A 'Test Connection' button is at the bottom left.

Field	Value
Description	Gmail (Yenthe)
Priority	1
SMTP Server	smtp.gmail.com
SMTP Port	465
Debugging	<input type="checkbox"/>
Connection Security	SSL/TLS
Username	youremail@gmail.com
Password	*****

Test Connection
